## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 6-9 are rejected under 35 U.S.C. 102(b) as being anticipated by Michihara et al. (JP11147255) provided by applicant's IDS.

Michihara et al. (Figs. 1, 3, 8 and 9) an apparatus for producing an optical film comprising:

- a cylindrical die roller (mold roller as Fig.1 shown) having a matrix formed on a surface thereof in which a plurality of rows of concave portions or convex portions that are linearly continuous are regularly arranged so as to be adjacently formed in parallel with one another so as to be inclined at a predetermined angle with respect to a circumferential direction of the die roller (continuous V groove), wherein the predetermined angle is 10-80 degrees as clearly shown in Fig. 3 [ the V-groove depth of 5 microns and the V-groove interval of 200-300 microns, thus the inclined angle is in a range of 10°-80°].
- means (the heat roller type imprint press as Fig. 2 shown) for transferring a rough face of a die film to a surface of another film, the rough face resin plate 4

being produced by rotating the die roller on the die film and having convex portions or concave portions that are linearly continuous.

### ***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
